SUMMARY

Learning web development from 2021 and polishing my skills to the highest level. Proficient in translating design into high-quality code, and writing application interface code via JavaScript and React.js workflows. Adept at monitoring & maintaining front-end performance.

SKILLS

Frontend - HTML, CSS, Bootstrap, Tailwind, Javascript, React, Font Awesome

Backend - Nodejs, Express.js, REST APIs, JWT

Database - MongoDB, Firebase

Familiar - Typescript, Next.js, Blockchain

Tools - VS Code, Stripe, Chrome Dev Tools, Axios, React Query

Version Control - Github

Deployment - Netlify, Heroku

KEY PROJECTS

1. What's App (Chatting website)

[Live Link](#) / [Git Repo](#)

- Firebase is used for authentication and people can chat from anywhere at the same time.
- Use date format for when I the last message was sent.
- Use Firebase to store all the message and specific group to chat with all kind of people.

Technologies: React, Material UI, Firebase, React Router Dom, Node.

2. Computer Hub (MERN)

[Live Link](#) / [Client](#) / [Server](#)

- Website for a manufacturer to sell tools in bulk quantity.
- Users can place order and can pay for their distinguish order can delete respective order also.
- Admin panel is for adding tools, make users admin, managing tools and managing all orders.

Technologies: React, MongoDB, Express.js, Node.js, Firebase, Font Awesome, Tailwind, Daisy UI, React query, Cors, JWT, Stripe, Dotenv.

3. Car House (MERN)

[Live Link](#) / [Client](#) / [Server](#)

- Website for managing a car warehouse and keep tracks of sales
- User can add, update and delete stocks.
- Must login to get authentication and access inventory and managements of products.

Technologies: React, MongoDB, Express.js, Node.js, React Bootstrap, Font Awesome, JWT.

CERTIFICATION

Full Stack Web Development Bootcamp - Completed May 2022

An intensive 6-month long coding bootcamp in which I learned to design and build web applications from scratch. Now I can build web applications from the front-end to back-end with the MERN stack (MongoDB, Express.js, React.js, Node.js)

EDUCATION

Bangladesh Army University of Science and Technology, Saidpur

Studying B.Sc in Computer Science Engineering from 2019-Present. Learned programming language like C, C++ and JavaScript.

LANGUAGES

Bangla- Native **English-** Comfortable
